The Honourable Lisa Raitt
Minister of Transport
Government of Canada

Dear Minister Raitt,

Toronto Pearson Aircraft Noise and Emissions - T.A.N.G.

The South Eglinton Ratepayers' and Residents' Association (SERRA) urges you to support the Toronto Aviation Noise Group (T.A.N.G.) regarding noise and aircraft emissions of passenger planes overflying our area to land at Toronto's Pearson airport.

TANG recently briefed the SERRA board regarding the detailed technical report by Captain Inch. The recommendations in that report would mitigate the noise and emissions impact on our residents and other residents of Toronto under this arrival route. We understand these recommendations also benefit the airlines. This is win-win for both residents and the airlines.

Kathleen Wynne, M.P.P., Don Valley West, Don Valley West M.P. John Carmichael and Toronto City Councillor Josh Matlow are also playing an important role on this issue and are copied on this letter.

TANG has dedicated volunteers well known to SERRA. We look forward to hearing that your office has been able to work with TANG to help implement their recommendations.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Jones", with a horizontal line underneath.

Geoffrey Jones
President
South Eglinton Ratepayers' and Residents' Association (SERRA)
